COLOR MASTER

About Us

Colormaster Pvt. Ltd. is a trusted supplier of high-quality plastic masterbatches and polymer additives, committed to delivering consistent performance, superior color dispersion, and reliable processing solutions to the plastics industry.

With strong technical expertise and modern industry practices, we specialize in White Masterbatches, Black Masterbatches, Colour Masterbatches, Additives Masterbatches, Filler Masterbatches, and Roto Foam Powder. Our products are designed to enhance the appearance, strength, and functionality of plastic products across diverse applications.

At Colormaster Pvt. Ltd., quality is at the core of everything we do. We use premium raw materials, advanced compounding technology, and strict quality control measures to ensure uniformity, excellent dispersion, and cost-effective solutions tailored to our customers' specific requirements.

Our customer-centric approach, timely delivery, and commitment to innovation have helped us build long-term relationships with clients across various industries including packaging, molding, extrusion, and rotational molding. We continuously invest in research and development to stay aligned with evolving industry standards and market demands.

Colormaster Pvt. Ltd. stands for reliability, consistency, and excellence—adding value and color to every polymer we serve.

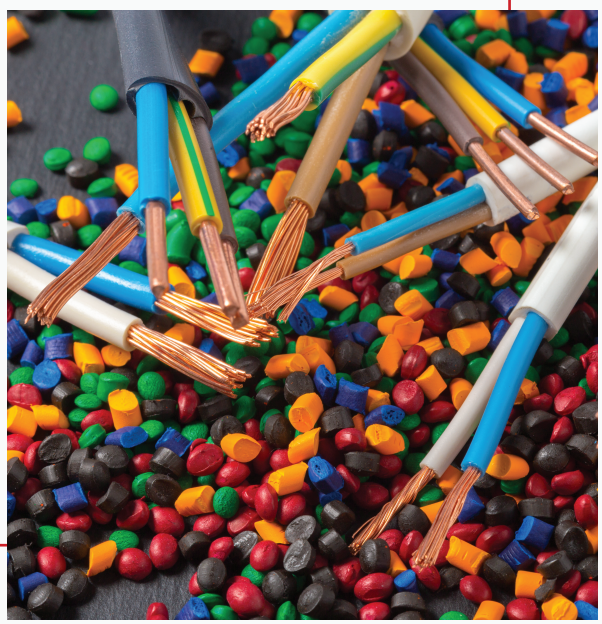

COLOR MASTER

Our Vision

Attain and Maintain Leadership Status in Our Chosen Field of Business

- Focusing all our actions towards Total Customer Satisfaction.
- Continuously striving to innovate our processes, products and services to generate value for money in all our efforts - both internal and external.
- Making total employee involvement, sincerity of purpose and commitment to objectives as the foundations of this vision.

Our Mission

Adding Value

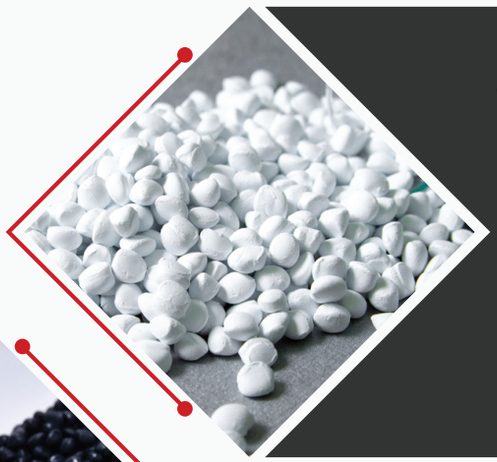

Our mission is a statement of what we stand for. It touches our interactions, activities and relationships with all our stakeholders. The way we do our business, our work culture, our quality perspectives, our obsession with innovative technologies and our commitment to our human resources are all singularly focused on enhancing and adding value.

COLOR MASTER

COLOR MASTER

Our Products

White Masterbatches

Colormaster Pvt. Ltd. White masterbatches are crafted with uncompromising quality, using premium micronized Titanium Dioxide along with specialised base resins and additives to enhance your end-use applications. Our masterbatches deliver superior whiteness, excellent dispersion and high opacity.

Black masterbatch

Colormaster Pvt. Ltd. black masterbatches feature highly loaded carbon-based formulations, serving key industries including building materials, agriculture, packaging, electronics, textiles, wires & cables, automotives, and toys. Driven by market needs, our R&D team continually enhances the range to align with evolving industry trends.

Colour masterbatch

Colormaster Pvt. Ltd. colour masterbatches include over 2,500 standard shades, compatible with major polymers such as PE, PP, PET, ABS, Nylon, and more. Known for excellent dispersion, durability, and safety compliance, we customise colours to suit diverse applications and regulatory needs.

Additives Masterbatch

The global plastics industry relies heavily on additives to enhance performance, sustainability, and regulatory compliance. Continuous innovation in pigment and additive formulations enables manufacturers to meet evolving industry and environmental demands. With a wide range of additive masterbatches

Filler Masterbatch

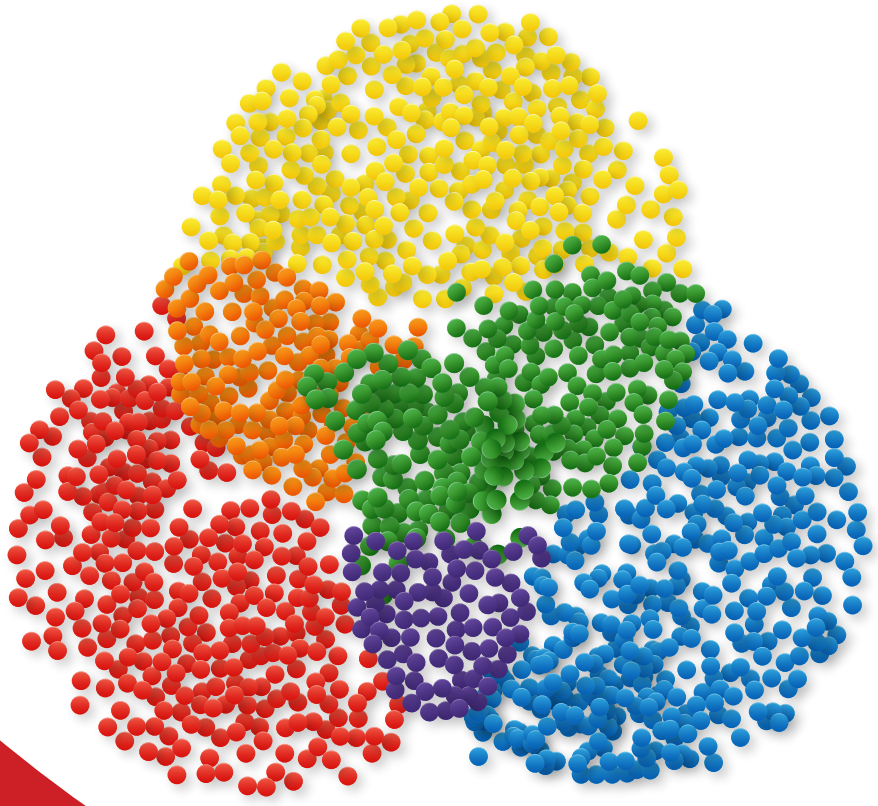

Colormaster Pvt. Ltd. filler (anti-fibrillation) masterbatches improve stiffness, edge security, and cost efficiency. Widely used in raffia tapes and FIBC bags, they prevent edge fraying and ensure durable, high-performance applications.

Roto Foam Powder

Roto Foam Powder is a foaming additive for rotational moulding that reduces weight while maintaining strength and stability. Compatible with LLDPE and HDPE, it improves insulation, stiffness, and impact resistance for tanks, containers, and industrial roto products.
